

Partners for
success

WELCOME TO TRUSTAR BANK

Trustar Bank, founded by Shaza Andersen (former founder and CEO of WashingtonFirst Bank), is a community bank conceived to meet the banking needs of businesses and individuals in the greater metropolitan Washington DC area. The Organizers of the Bank are experienced bankers, bank investors, and business professionals in the Bank's target market area. Rapid consolidation in the Bank's target market has created an opportunity for a community-based commercial bank.

As a community bank, Trustar Bank's strategy is to be a personalized alternative to larger, super-regional financial institutions that increasingly dominate the Bank's primary market. Our mission statement emphasizes personal service, responsiveness, and a willingness to tailor products and services to meet the needs of our customers.

At Trustar, our mission is to be your partner for financial success, to provide a sound investment for our shareholders, and to support our local community.

“ Our unique approach to financial services and our ‘can do’ attitude sets us apart from our competition. At Trustar, our philosophy is to provide customized banking solutions and top-notch service that truly addresses your individual needs. ”

- Shaza Andersen
Founder and CEO of Trustar Bank
