

Installation Instructions

Installing from an iOS device

The TM Mobile Experience can be installed manually on an iOS device by selecting the "Share" icon at the bottom of the page, and then selecting "Add to Home Screen".

1. Once the new page has been saved to your mobile device, click on the Truststar Bank icon to log into your new mobile banking.  You may need to edit your home screen to move the app icon back to its original position.

2. Enter your current log-in credentials- *there is no change to this information.*
 - a. Company ID
 - b. Login ID
 - c. Password

3. Once logged in you will see all the same information as the previous app along with additional features that are accessible from the desktop version including:
 - a. Dashboard Customization
 - b. All Accounts View
 - c. Type to Filter
 - d. Advanced Filtering
 - e. New Check Positive Pay Workflow
